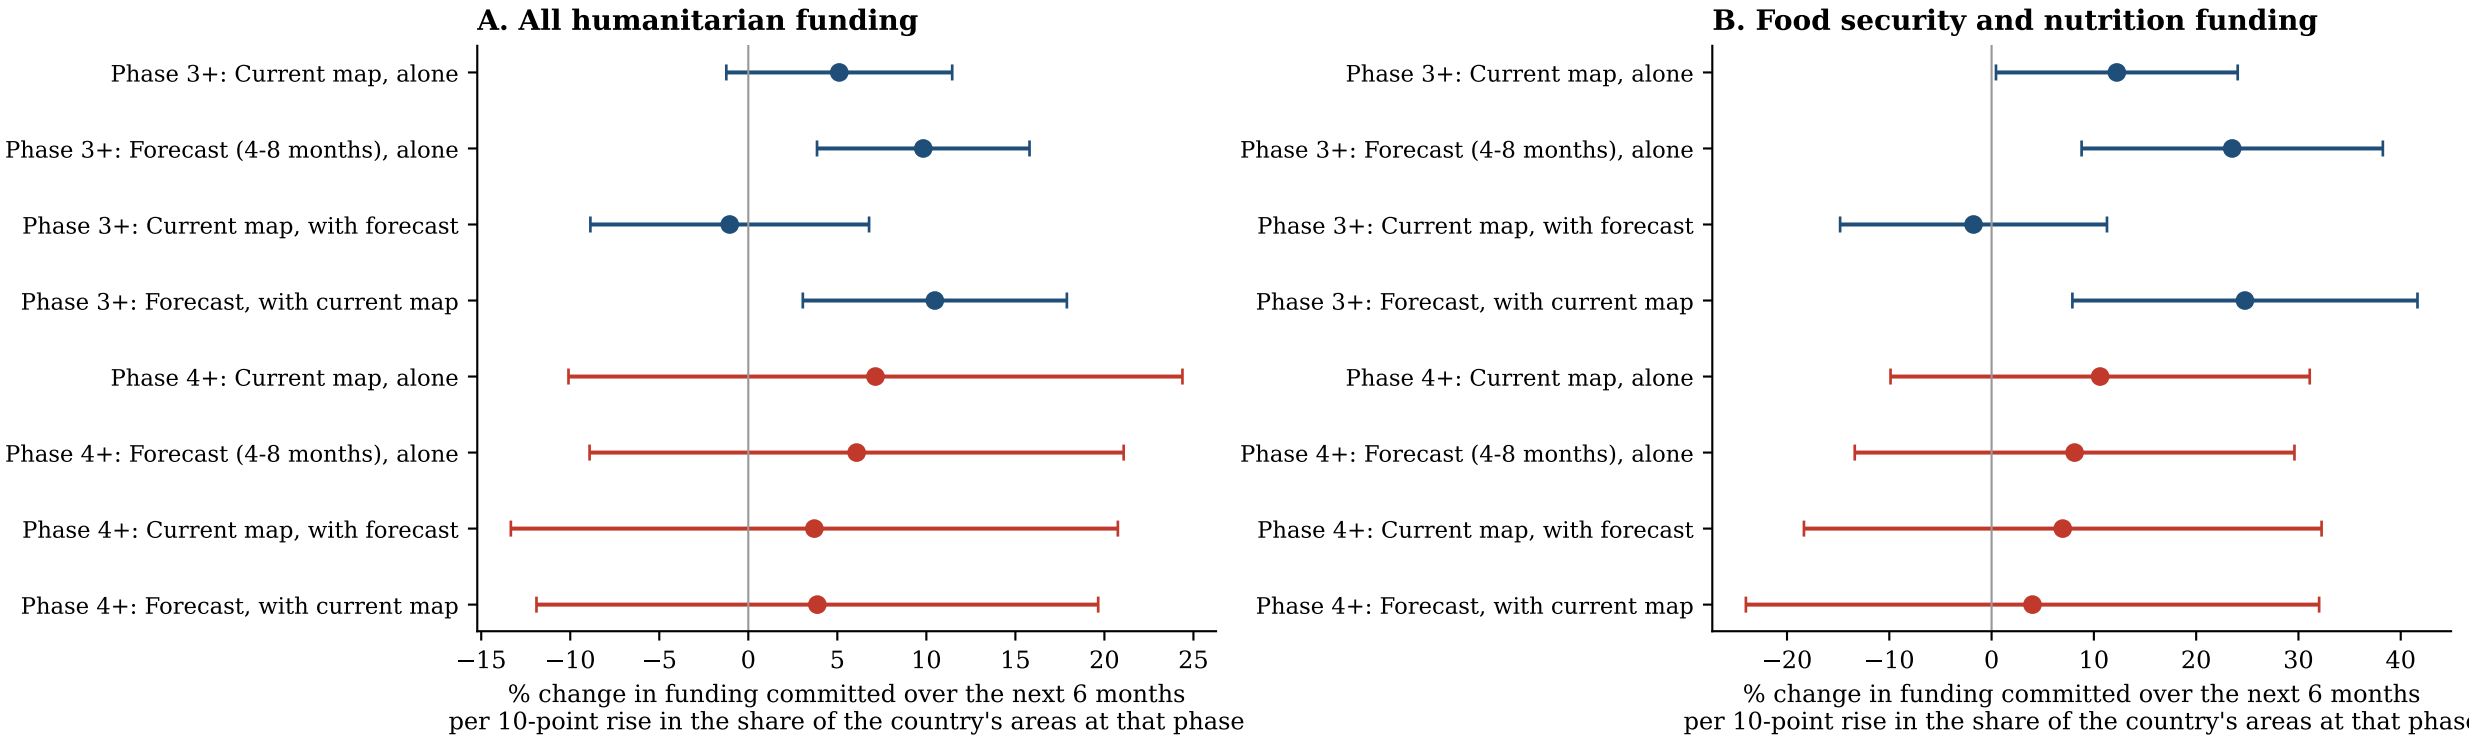
Does humanitarian funding follow FEWS NET's maps? Within-country, 2011-2024



Country x FEWS NET map round panel. Funding: humanitarian commitments recorded by OCHA's Financial Tracking Service in the 6 months after the map, log. Controls: funding in the 6 months before, country and map-round fixed effects (each country's usual aid level and global funding swings). Shares are unweighted counts of FEWS NET areas. 95% intervals (approximate, linearised) clustered by country.
